My School is a World!

In our schools, where more than 28 nationalities meet, the differences and similarities are remarkable. Our school is a world, with space for everyone, just like the planet, inviting us to leave our comfort zone and meet people from all places, with different cultures and languages.

My school is undoubtedly a world of words, choices, responsibilities, and opportunities. It's a necessary world, sometimes boring, but important for learning, making friends, and building trust.

May our school be a home and a haven for everyone.

We believe in a **school**

Welcoming and equal for all people

Kind seeing character and not place of origin

Mindful facing its problems with dignity

Diverse in nationalities, cultures, religions, and languages

Efficient where both studying and playing are learning

Familiar where everyone has the same rights and feels welcome

Gentle helping students to have a promising future

Honored showing everyone respect for one another

Intercultural teaching how to be a good person in the world

Fair where learning is done safely and from diversity

Free, with basic human rights for universal happiness

Multicultural with naturalness, respect and affection

New where new things are learned

Proud of its gender equality

Powerful including the entire world without leaving the same place

Quality that helps to choose the right paths and gives lessons of life

Respectful because we all deserve to be loved

Compassionate with good people and surrounded by friends

Tender and caring towards students

Communal among both students and teachers

Visionary where everything is possible |

Xenophobia, racism and prejudice...**ZERO.** |

Cultures dance
in voices, colors, and gestures
the world meets.

It's not the country where we are born
that determines who we will become
we are human, we are equal.

When a friendship is created
we travel without leaving a place
we get to learn how to love.

Different languages
Same communication
in the power to connect

A lesson for life
I've learned – respect
and you will be respected

Justice is not shouting
it's a firm step on the ground
with eyes open

Friendship is the harbor
where the world rests
when the day weighs heavy

The more united
we are, the more
reality is alive.

It doesn't matter if you're Gypsy
Angolan or English
I befriend all three.

My life
is in community
and yours?

Rain on rust
Time learns to eat away
Silence of iron

We are all different
but we have minds alike
The same human nationality

We are all different
but we have minds alike
The same human nationality

Countries are like
stars of various colors
that shine in the universe

My homeland
is a nationality
that cannot be erased

Friendship
is like drawing
a story

I must embrace what is
instead of making fun
To help people

Respect diversity
Accept humanity
Be the future of society

With equality
and security we can
offer hope

A world without respect
is a poorly made world
what a sad flaw!

What can we do
To bind cultures?
Choose interculturality.

Diversity is a beautiful thing
Respect, common sense, and equality
What a divine thing!

Whether facing a cross on the chest
or a black scarf
one cannot be disrespectful

***Poetic insights
by our students***

It's not sad to
be alone, people
will come and go

It's very important the respect
That each person keeps
Within their hearts.

We are all equal
we deserve equality
In togetherness no suffering

Why can't the world
be a safe place

Without your love
I only feel pain -
open your heart

Culture is just
a difference,
let's continue together

A world without confusion
lives in harmony.
Dreaming of that world.

Different cultures
united in the same world
hope in diversity

Stop bullying and start
equality, rises a new
culture and greater happiness

To welcome is something that is
safe to live with – it means
that there is a friend to know

Being fair is being honest.
Growing up is learning to be happy.
Equality is the foundation of life.

Being mindful,
knowing a little about everything,
doing our best.

Choosing to
include is the noblest
choice of all

Diversity
is a world of culture
that spreads

I believe that
by welcoming, we are
doing good

To welcome and help
to make the world a better place,
together we will change

Be kind
with any other person
welcome like family

United we welcome
the world we will help
Togetherness we will bring

Connecting with the other
Getting to know the other
brings us closer to each other

In real friendship
there is never malice
we learn by having fun

I love meeting
new people.
I learn so much!

Helping to learn and collaborate
the school is a world
and you can't miss it

Having conversations is good
because having friends is
being happy

***Inspired by traditional
Japanese poetry (haikus)***
